Alumni in Action

Carter Center announces Guinea Worm eradication is near
The Carter Center recently reported the lowest number of Guinea worm disease cases in the world. Rollins alumna, Kelly Callahan 10PH, has been instrumental in this monumental achievement. Read more.

Photos from the Field
In this issue, we're highlighting some your amazing work with a photo slide show. Take a look! Have a photo to share? Send it our way so we can include it next time!

Class Notes
Recently married? Published an article or book? Earned an award or promotion? Share your news and read what fellow alumni are doing.

Around Rollins

A message from your RSPH Alumni Board President
Kaitlin Porter 08PH, RSPH Alumni Board President, is highlighting some of the perks of being a Rollins alum. Read her "Top 5" alumni benefits.

Rollins connects education and experience for REAL learning
Since 2010 the Rollins Earn and Learn (REAL) program has provided more than 1,000 students with hands-on public health experience through work-study jobs. It's a unique offering that sets our school apart from all other schools of public health. Learn how you can take advantage of our REAL program and read about one alumnus' experience employing students.

Department of Biostatistics and Bioinformatics celebrates 50 years
This fall, the BIOS department will host a 50th anniversary celebration and alumni reunion. Mark your calendars for October 16-18, 2014. Registration information is coming soon.

Atlanta Business Chronicle recognizes Rollins
The Atlanta Business Chronicle's 2014 Health-Care Quarterly celebrates local health care leaders, including several RSPH faculty and alums. Take a look to see who made the list!

Building a pipeline for improved health
Students from Emory's professional and undergraduate programs are mentoring high school students into health science careers through Emory's Pipeline program. Learn how you can too.
Careers & Networking

Featured Career Tip: Pay it forward and reap large rewards
Many of us have experienced the value of mentorship and benefited from the guidance of those who have come before us. As we ring in a new year, we encourage you to pay it forward by helping others along in their public health career.

"Dear Sheba..."
In our last issue, Sheba Ehteshami 07OX 09C 11PH discussed the value of generational diversity in the workplace. This month, she's sharing her thoughts on some of the changes, and opportunities, recently created by health care reform. Read more.

RSPH has journeyed into Twitter! Follow us today @RSPHAlumni to stay up to date on research, events and community partnerships that helped define your Rollins experience.

Follow us on Facebook
In case you missed them, here are some of our recent most liked posts. Join us on Facebook today to read more.

- According to the LA Times, about 1/5 of China's air pollution comes from producing goods for export to the US and other countries and that pollution is crossing the Pacific where it's boosting smog levels in the US.

- The New York Times has a great article on cancer and the challenges that come with finding a magic bullet. "The rhetoric about the war on cancer implies that with enough money and determination, science might reduce cancer mortality as dramatically as it has with other leading killers - one more notch in medicine's belt. But what, then, would we die from?"
