Welcome!

The RSPH Partner Organization Appreciation Reception honors our community partners who have given their time, wisdom, and knowledge to the success of the Rollins School of Public Health. We thank you for your dedication and look forward to continuing our partnership.

Outstanding Practicum Experience

The following students were selected as having best demonstrated public health in action through their practicum experiences. We give thanks to the partner organizations that provided the opportunity for these students to develop their skills in a practice setting.

Jessica Chen, Biostatistics and Bioinformatics
Asthma Health Effects in Older Adults Compared with Younger Adults
