This guidance was prepared by the RSPH Preparation and Response Team (see Appendix A). The Team was convened with the charge to serve as a central hub for information gathering related to COVID-19 and to coordinate activities related to COVID-19 preparation and response to maximize opportunities and meet the needs of RSPH. This includes making recommendations to the dean and RSPH Leadership Team regarding communications and needed actions, ensuring alignment with efforts being undertaken at the central level (including the Emory Office of Critical Event Preparedness and Response), and advocating for the dissemination of timely and accurate information to RSPH stakeholders (see Appendix B for a list of reputable information sources).

Underlying all aspects of this guidance is a deep commitment to eliminating all stigma and discrimination related to COVID-19 transmission. Emory relies on ethical principles that seek to “uphold the dignity and rights of all persons through fair treatment, honest dealing, and respect. Emory is committed to creating an environment of work, teaching, living, and learning that enables all persons to strive toward their highest potential” (http://president.emory.edu/vision.html#principles).

RSPH also shares a goal to “sustain an inclusive, diverse academic community that fosters excellence in instruction, research, and public health practice” (https://www.sph.emory.edu/about/overview/index.html). Thus, the introduction of COVID-19 does not allow us to relax the pursuit of our ideals. Instead, it challenges us to make good on existing promises. Any stigmatizing or discriminatory behavior that is motivated by COVID-19 concerns are denounced. A statement on the importance of not engaging in stigmatizing or discriminatory behavior is forthcoming on the school’s Community and Diversity website. Individuals needing support services to manage experiences of distress may draw from any of the resources listed in Appendix C, and situations of bias may be reported through a variety of mechanisms:

- Bias Incident Reporting Team
- Office of Equity and Inclusion
- Emory Ombuds Office
- Division of Campus Life’s Office of Student Conduct
This guidance is a living document that will evolve as new information becomes available. It has four sections that represent the major areas of consideration related to preparedness and response to COVID-19 for RSPH:

- **Section I**: Continuity of Teaching, Research, and Practice in Emergency Conditions: A toolkit and guidance for faculty and Instructors
- **Section II**: Guide for Prospective and Current Students
- **Section III**: Staff and Infrastructure Needs
- **Section IV**: Communications Strategy

However, it is acknowledged that the four areas are very much interconnected and may be relevant to multiple types of stakeholders. This guidance is intended to complement existing university-level resources available at [https://www.emory.edu/coronavirus/](https://www.emory.edu/coronavirus/).

Additional RSPH-related information can be found at the RSPH COVID-19 webpage: [https://www.sph.emory.edu/coronavirus/index.html](https://www.sph.emory.edu/coronavirus/index.html).

This is a large document with a lot of information. There are, however, “5 things to know” that serve as key take away points for how to manage the pandemic in the context of RSPH-related work:

1. Protect yourself and prevent illness by washing your hands frequently for at least 20 seconds with soap and water. Hand sanitizer stations and wipes will also be available soon in locations throughout Rollins. Avoid touching your face, cover your coughs, and stay home when you are sick.
2. Classes are re-starting online March 23, 2020, and will be held remotely through the end of the semester.
3. Faculty and staff should consult with their supervisors regarding teleworking options.
4. For the time being, both buildings will remain open for faculty, staff, and students to access resources.
5. All non-essential travel, conferences, and meetings should be held remotely if possible or otherwise rescheduled.
Section_I

Continuity of Teaching, Research and Practice during COVID-19:

A Toolkit and Guidance for Faculty and Instructors

A subgroup of the RSPH Preparation and Response Team contributed to this document comprising the following:

Delia Lang, Assistant Dean for Academic Affairs
Moose Alperin, Research Assistant Professor and Director, Executive MPH Program
Robert Bednarczyk, Assistant Professor, Hubert Department of Global Health
Sarah Blake, Research Assistant Professor, Health Policy and Management
Allison Chamberlain, Research Assistant Professor, Epidemiology
Matthew Freeman, Associate Professor, Gangarosa Department of Environmental Health
Kimberly Jacob Arriola, Executive Associate Dean for Academic Affairs
Max Lau, Assistant Professor, Biostatistics and Bioinformatics

In response to the emerging outbreak of COVID-19, RSPH is prioritizing efforts to ensure continuity of teaching, research and service while ensuring the health and safety of our faculty, staff, students, and the entire Emory community. To ensure the physical health and safety of our community, RSPH supports faculty, students and staff who choose to self-isolate if they are symptomatic and suspect they may have been exposed to the virus. This includes, but is not limited to, individuals who have recently traveled to one of the countries designated with a Level 3 travel advisory as of March 6, 2020 (i.e. China, Iran, Italy, South Korea). Faculty, staff, and students who have traveled to or through Level-3 countries should call the Office of Occupational Injury Management: (OIM) at 404-686-8587 to receive a questionnaire. For those experiencing symptoms, call Emory Operational Injury Management (OIM) (404-686-8587) for a health assessment and further instruction. Please continue to monitor the Emory COVID-19 updates as well.

In light of the university’s decision to transition to remote instruction effective March 23 and through the end of the semester, RSPH is poised to provide the necessary technical support to mitigate the added burden that this causes to ongoing activities. The purpose of this document is to provide tools and guidance for faculty and instructors engaged with Masters and Doctoral students as well as those supervising staff. Specifically, these guidelines are prepared for faculty, instructors and others who:
• teach traditional, face-to-face courses in the Spring 2020 semester
• serve as APE, ILE (capstone/thesis), and dissertation advisors and mentors
• supervise graduate research assistants, research staff, and/or administrative support staff

Available support for transitioning to remote teaching:

Below we outline the various levels of support available to assist faculty and instructors to transition courses to remote teaching and learning environments. Given the very short time frame we have to accomplish this transition with limited existing resources, it is important that you identify your technological need in light of your experience with online platforms and engage with the correct level of support.

Level 1: Self-help option
• This guiding document includes links to step-by-step instructions (including screen shots) associated with frequently utilized functions in Zoom, Canvas, Studio, Panopto, and Apporto (see Table A below)
• If you are already a user of any one of these platforms, but need to transition a few components of a course to an online modality, you may be able to follow these instructions on your own. If not, see Level 2.

Level 2: Online group trainings
• Emory University’s Teaching and Learning Technologies offers the following real-time trainings (approximately 60 min) https://canvas-support.emory.edu/training/workshops.html
• Links to available RSPH webinars that you can access and view on your own time (approximately 60 min) are available here for Zoom https://rsph.hosted.panopto.com/Panopto/Pages/Viewer.aspx?id=3bddfec5-7e21-4aee-b9fc-ab53011d114a; and for Canvas Studio https://rsph.hosted.panopto.com/Panopto/Pages/Viewer.aspx?id=0f1326b7-b47d-43e5-b794-ab60014534a1
• Additional trainings are being developed at RSPH to address frequently used features in Canvas/Studio, Zoom, Panopto and Apporto (for classes with a lab component). These trainings will be delivered in real time to allow for questions. They will also be archived and available for later viewing. Schedule is forthcoming.

Level 3: Peer remote one-on-one assistance
• Appendix D lists faculty across multiple departments who have some level of expertise with one or more online platforms and have agreed to assist others with questions during designated online office hours. Note that all faculty and instructors teaching this
semester are working to transition their own courses online. Therefore, please respect their time availability.

**Level 4: Instructional designer and/or IT support**

- Faculty and instructors will be able to join online drop-in office hours via Zoom sessions to receive support from instructional design staff during the time frames listed below. Participants will be able to ask questions and interact with everyone joining the Zoom session. Schedule is forthcoming.

- Remote one-on-one support is also available [here](#). This link will take you to a short form where you can outline your specific need(s). Based on this information, your request will be triaged to one of the instructional designers (for teaching related questions) or to the RSPH IT department (for systems related questions).

This section of the guidance document provides the following resources:

A. A checklist to explore readiness to transition to remote technologies for faculty and instructors engaged in teaching Masters and Doctoral students

B. A table outlining suggested translations of face-to-face pedagogical approaches to remote learning environments

C. A checklist to explore readiness to transition to remote technologies for faculty supervising research and administrative support staff

D. Additional considerations (e.g., managing APE/ILE and dissertation advising)

There is, understandably, much concern surrounding the impact of the coronavirus outbreak. We are working to monitor this rapidly changing situation and quickly adapt our operations accordingly. Thank you for your help in addressing the needs of our RSPH community.
Two checklists are provided below to help you assess your readiness to transition to remote technologies including links to available resources designed to teach you basic skills in utilizing various online systems. The first checklist is designed for faculty and instructors who are teaching Masters and Doctoral students; the second checklist is for faculty engaged in supervision of research staff and/or administrative support staff.

### A. Readiness Self-Assessment for Faculty and Instructors Engaged in Teaching

<tr>
<td></td>
<td></td>
<td><strong>Staff have a way to contact each other and collaborate remotely for team work.</strong></td>
<td></td>
</tr>
</tbody>
</table>
D. Additional Considerations:

1. Consider identifying a back-up faculty/instructor for your class, if illness prevents your ability to teach.

2. If you have guest speakers scheduled in your class, have a plan for the best way to engage them remotely. Ensure that you have emergency contact information for them (e.g., cell phone number). Do they have the capability to use technology to join your course in real-time (if a synchronous course); do you need to assist them with pre-recording their presentation and uploading to Canvas?

3. APE/ILE (thesis/capstone) and dissertation advising:
   - Consider challenges with students’ work environments including circumstances where students’ work may be impeded either by illness and/or by disruptions in operations of the external sites required for completion of APE hours or data collection for theses/dissertations.
   - Discuss with your students whether field work (i.e., research and/or practice activities conducted outside of the university, this may be domestically or internationally) is feasible given the most up-to-date travel restrictions.
   - Reach out to students proactively to identify challenges that may arise.

4. Center for Faculty Development and Excellence (CFDE) staff are scheduling virtual and face-to-face trainings to support faculty and instructors in adapting their courses to be delivered from a distance. Information about trainings will be made available once available. Recording and training handouts are available here http://college.emory.edu/oisp/remoteteaching/index.html
Section II

Guidance for Prospective and Current Students

A subgroup of the RSPH Preparation and Response Team contributed to this document comprising the following:

Kara Brown Robinson, Associate Dean for Admissions and Student Services
Prudence Goss, Assistant Dean for Admissions and Student Services
Allison Chamberlain, Research Assistant Professor, Epidemiology
Claudia Paez Ellett, Assistant Dean, Office of Career Development
Paige Harton, EPI MPH Student
Carmen Marsit, Associate Dean for Research
Katelin Reishus, GLEPI MPH Student
Heather Zesiger, Senior Director, Student Engagement

The admissions and recruitment team at the Rollins School of Public Health has been closely monitoring the development of coronavirus. The following set of guidelines, drafted in concert with Emory University and RSPH plans regarding COVID-19, is intended to offer assurance to our prospective students that we are taking all of the necessary steps to ensure a smooth transition to Rollins. This plan is subject to change as guidelines regarding COVID-19 evolve, which will be communicated to our prospective students via email.

In keeping with the advisement of CDC, please adhere to the following:

- Wash your hands often (CDC Handwashing Advisement)
- Stay home if you have a fever or you are sick
- Avoid close contact with people who are sick

Please continue to monitor the Emory COVID-19 updates as well. The diagram above illustrates the scope of our guidance related to prospective and incoming students. Each of these three areas will be addressed below.
A. STUDENT VISITS/EVENTS & TRAVEL

Emory University continues to follow CDC and state public health guidance regarding COVID-19. At present, there is no reported widespread transmission of the disease in Georgia and no public health guidance recommending suspension of conferences. (from: https://news.emory.edu/stories/2020/01/er_tn_coronavirus/campus.html). The decision deadline remains April 15, 2020; however, extenuating circumstances will be considered on a case-by-case basis.

Visit Emory (March 26-27)

- At present, we plan to suspend the face-to-face implementation of Visit Emory. It will be held virtually, with a limited number of recorded sessions delivered online.

- RSPH will honor travel stipends awarded offered to students who registered for Visit Emory at alternate dates. Students will have until June 1st to use the travel stipends for a visit to our campus.

Campus Tours, Information Sessions & General Visits

- In the event you are unable to visit our campus due to travel restrictions or advisement in your area, we will have a virtual tour of our school available on our website (weblink forthcoming) as well as our RSPH Instagram page. An email communication will be sent to alert students when this is available.

- Our administrators and current student ambassadors are also available for phone calls and other forms of virtual engagement so that you can continue to be familiar with our school.

B. INTERNATIONAL STUDENT I-20 & VISA PROCESS

- Students who currently hold an F1-Visa and living in the United States are reminded to partner with their current institution to have their SEVIS immigration records transferred to Emory University. This will help to avoid travel restriction and visa processing challenges one may face in returning home.

- If you are currently in the U.S., unable to return home due to travel restrictions, please be reminded that our team has worked with local area apartment communities who have vacancies this summer (see those communities below with associated costs below). Additional information about student housing is also available in our Cost of Living Guide.

</table>

- For international students living in areas where U.S. consulates are closed, please understand that you have the flexibility to try different consulates throughout your country, and we advise revisiting your desired consulate’s visa appointment website for the latest updates. Also, for F-1 students there is a special provision to request an expedited visa interview. For US consulates in China, specifically, the URL is [https://www.ustraveldocs.com/cn/cn-niv-expeditedappointment.asp](https://www.ustraveldocs.com/cn/cn-niv-expeditedappointment.asp)

**C. ONBOARDING & ORIENTATION**

- If you need additional time before making your admission decision, please let us know. You will find the appropriate admissions contact below.

- Please know that RSPH could move delivering courses online, should the need arise, so that your studies are not interrupted. Information would be shared via email with all incoming students related to this. If this action is necessary, RSPH will share the minimum technology resources required for online engagement. Incoming students who need advisement about financing a computer to meet the minimum requirements should contact [Prudence Goss](mailto:Prudence.Goss@emory.edu) (see below).

- The U.S. Department of Education has given broad compliance approval related to the awarding of federal aid, to institutions who need to move to an online delivery of coursework. To that end, there is flexibility in the processing of federal student loans. Students awarded RSPH institutional funding for Fall 2020 can anticipate that the level of funding will remain the same (please see your award notification for school-specific requirements).

- RSPH will continue offering webinars and virtual events to incoming students throughout the summer to support students in their transition to Rollins.
As there are new developments related to your transition to Rollins, updates will be shared on the admitted student portal as well as by email.

**Student Academics and Advising**

**General Checklist for ALL Students**
___ I have access to a laptop that meets **RSPH minimum requirements**
___ I have internet access
   If no, contact **rsphenrollmentservices@emory.edu**
___ My **OPUS** contact information is up to date including alternate email address, mobile phone, mailing address, and emergency contact. [Need instructions to update in OPUS.]

**What to anticipate about courses and advising should there be restrictions on University openings:**
- Faculty and ADAPs will be communicating with you through @emory.edu email and/or Canvas-- it is encouraged to adjust your Canvas notifications to"Notify me Right Away"
- Course completion will be distance-based and faculty will modify syllabi as needed. Anticipate discussion boards in Canvas, attending class and office hours virtually. Exam delivery may change. Group work may be strongly encouraged to do virtually. For courses involving work with community organizations, instructors will provide further guidance.
- Instructors/TAs will be in contact as modifications are finalized.
- Advising for all students will be distanced based with both ADAPs and faculty. This may include phone, email, Zoom, Skype or other platforms.
- Academic Resource Center (ARC) will continue to offer appointments and drop in hours virtually.

**Second Year Students:**
- For questions on APE portal and/or concerns about APE completion, refer to [Insert Contact].
- Thesis due date to ETD remains 4/22. However, you must coordinate other deadlines with your Thesis Chair. If you anticipate challenges with field advisors and/or committee members who are not part of the Emory community, please email your Thesis Chair and ADAP.

**First Year Students:**
- Pre-Registration Advising Appointments will be virtual. Your ADAP will communicate additional details.
- Pre-Registration Dates: Shopping Carts available 3.16@9:00am; Pre-
Registration opens **3.23@9:00am**
- APE/Summer: Statement of awareness of uncertainty and guidance

**ADAP Considerations**

Preparation for distanced-based advising appointments:
- When booking pre-registration appointments now, ask students how they prefer to meet (i.e. preferred method 1 and 2). Consider Phone, Zoom, Skype, or email as last resort
- Forward Office Number to Cell
- Consider hosting live zoom events and recordings for information delivery.
  - Set up Panopto account, if you don’t have one should you need to record any information sessions
- Zoom [Provide Instructions]
  - Add a profile picture
  - Create your own meeting ID
  - Sync with Outlook 365
  - Virtual Office hours in meeting room; set up permission to enter.

Training Needs:
- Working knowledge of Zoom to personalize and utilize features advising and drop in hours. Panopto account set up and/or zoom capability for group meetings.

Counseling:
- Recognize and be prepared that some students may need counseling due to heightened stress and anxiety.
## COVID-19 GUIDANCE FOR UNIVERSITY AND SCHOOL SUPPORT, SERVICES & RESOURCES

### University and School Support, Services & Resources

<table>
<thead>
<tr>
<th>Who Does Guidance Apply To?</th>
<th>How can I receive up-to-date information about COVID-19?</th>
</tr>
</thead>
</table>
| • All Students at the Rollins School of Public Health | • All faculty, staff and students will receive e-mail communications from Emory University and the Rollins School of Public Health.  
• We strongly encourage students to download the free, Emory Livesafe App for emergency notifications and alerts. This app may also access university resources through this app.  
• Students may also access university-wide updates at the Emory News Center. |

How can I stay connected to other students in the RSPH Community in the event of a school closure?

• All students will be added to the RSPH Community Canvas Page. Here, you will be able to access COVID-19 Guidance for the Rollins School of Public Health and interact with students, faculty and staff via the discussion board.  
• You can also connect with other students on other platforms, such as the Class of 2020, Class of 2021, Class of 2022, and the International Student Facebook Pages.

What COVID-19 Guidance is available to the RSPH Community?

• Academics and Advisement  
• University and School Support and Resources  
• Experiential and Career Services (including GFEFA, REAL, APE)  
• Engagement and Community (including Student Organizations)  
• Doctoral Student Support

Who do I contact in the event of an emergency during a school closure?

• In the event of a medical emergency, please call 911.  
• In the event of all emergencies during a school closure, please notify Joanne Williams, Assistant Director for Student Engagement (jampost@emory.edu, call/text 404-683-5404) and Kara Robinson, Associate Dean for Admission & Student Affairs (klbrow2@emory.edu).  
• Additionally, Student Intervention Services assists Emory Students with acute and non-acute distresses. To speak with a member of the SIS team, please e-mail sisteam@emory.edu or call their 24/7 hotline (404-430-1120)
What university resources can students access in the event of a school closure? *(Listed alphabetically by topic)*

- **Accessibility Needs:**
  - Please contact the Emory University [Office of Accessibility Services](mailto:accessibility@emory.edu) at accessibility@emory.edu.
  - You may also contact Joanne Williams, RSPH Office of Accessibility Liaison at [jampost@emory.edu](mailto:jampost@emory.edu).

- **Diversity, Equity and Inclusion (including Bias Incident Response and Open Expression):**
  - Please contact Shannon Vassell, RSPH Assistant Director for Community-Engaged Learning and Cultural Humility, at shannon.vassell@emory.edu.
  - The following Emory University Campus Life Resources are also available: Center for
    - Women
    - Office of LGBT Life
    - Office of Racial and Cultural Engagement
    - Social Justice Education

- **Financial Support:**
  - If you are experiencing financial difficulties, please contact RSPH Enrollment Services at rsphenrollmentservices@emory.edu.

- **Food Security:**
  - Please contact the Emory University Center for Student Success, Programs and Services. Students may complete a Food Security Form to access resources.

- **Mental Health:**
  - Counseling and Psychological Services and the Office of Spiritual and Religious Life are confidential sources of help for students, including crisis intervention, community referrals, and community outreach services.

- **Student Health:**
  - For all medical emergencies, including chest pain, serious difficulty breathing, or another type of medical emergency, please call 911.
  - If you have traveled to affected areas and are experiencing symptoms (e.g. fever, cough, shortness of breath), please isolate yourself from others and call Student Health Services for further directives concerning evaluation procedures. You may contact them at 404-727-7551.
  - For more information regarding COVID-19 Student Health Procedures, click here.

- **Title IX:**
  - For any Title IX questions or Title IX-related issues, please contact Joanne Williams, RSPH Deputy Title IX Coordinator, at jampost@emory.edu.
  - For more information, please refer to the [Office of Title IX](mailto:Office of Title IX) website.

What university resources can international students access in the event of a school closure? *(Listed alphabetically by topic)*
Experiential and Career Services including APE, REAL, GFEFA

REAL

Week of March 9, Heather Zesiger can contact all REAL employer-partners and all students with REAL awards to initiate communication about COVID-19 planning.

To students:

- Summarize RSPH efforts, provide contact information
- Encourage them to be proactive in asking their supervisor about alternate work arrangements should their site close or should they need to self-isolate.
- Mention options for emergency loans, and or taking more loans through financial aid, should they not be able to work their full hours under REAL due to closure or illness.

DRAFT Guidance:

Dear students in the REAL program:

We would like to update you on the RSPH response to COVID-19 and provide guidance during this challenging time. The REAL personnel at the Rollins School of Public Health have been closely monitoring the development of COVID-19. The following set of guidelines, drafted in concert with Emory University and RSPH plans regarding COVID-19, is intended to offer assurance to our students and partners in the REAL program that we are taking all of the necessary steps to ensure health, safety and continuation of the program. This plan is subject to change as guidelines regarding COVID-19 evolve, which will be communicated to students in the REAL program via Canvas.

1. In keeping with the advisement of CDC, please adhere to the following: Wash your hands often (CDC Handwashing Advisement)
   - Stay home if you have a fever or you are sick
   - Avoid close contact with people who are sick

2. Please be proactive in asking your REAL supervisor about alternate work arrangements should your worksite close or should you need to self-isolate due to illness.

3. If you are unable to work and face financial hardship, please contact Heather Zesiger and Jena Black.

To employer-partners:

- Summarize RSPH efforts, provide contact information
- Encourage them to offer alternative work arrangements to REAL students if their site
Dear Rollins Earn and Learn (REAL) partners:

We would like to update you on the RSPH response to COVID-19 and provide guidance during this challenging time. The REAL personnel at the Rollins School of Public Health have been closely monitoring the development of COVID-19. The following set of guidelines, drafted in concert with Emory University and RSPH plans regarding COVID-19, is intended to offer assurance to our students and partners in the REAL program that we are taking all of the necessary steps to ensure health, safety and continuation of the program. This plan is subject to change as guidelines regarding COVID-19 evolve, which will be communicated to partners in the REAL program via email.

1. In keeping with the advisement of CDC, please adhere to the following: Wash your hands often (CDC Handwashing Advisement)
   Stay home if you have a fever or you are sick
   Avoid close contact with people who are sick

2. Please make a plan now for alternative work arrangements for your REAL students if your work-site should close or if the student should need to self-isolate due to illness.

3. If you are unsure what duties students could perform remotely, please discuss with your student and feel free to reach out to Heather Zesiger to brainstorm appropriate tasks.

4. When remote work is in effect, please maintain or enhance your current communication and accountability practices with your REAL student. Refer to the Partner Guidebook and the Student Workplan.

Applied Practice Experience (APE)

Messaging:

To students already in an APE:

• Summarize RSPH efforts, provide contact information
• Be proactive in asking your field supervisor about alternate work arrangements should your work-site close or should you need to self-isolate due to illness or exposure.

To students looking for an APE, including displaced international students...
Many of these students were expecting to work in their home country and may face financial consequences of having to take unpaid APE in the U.S. Some also report feeling less competitive for APE in the U.S. because of their language proficiency.

To current field supervisors

- Summarize RSPH efforts, provide contact information
  
1. Please make a plan now for alternative work arrangements for the applied practice (APE) student if your work-site should close or if the student should need to self-isolate due to illness.

2. If you are unsure what duties students could perform remotely, please discuss with your student and their department.

3. When remote work is in effect, please maintain or enhance your current communication and accountability practices with the APE student.

To potential field supervisors

- Briefly describe APE requirement
- Summarize benefits and responsibilities for APE field supervisors
- How to advertise APE opportunities

**Global Field Experience Financial Awardees**

Heather and Deb can manage communication with this sub-set of students through email and the required pre-departure course in Canvas. Initial communication has already gone out to students in the March 5 decision letters and will again March 20 with final decision letters (following the revision period), and as needed.

Students are encouraged to keep in touch with field contacts as well as Emory or local partners to assess project viability.

_Students need to be reminded to schedule their return travel to arrive back in the U.S. no later than early August to allow time for possible quarantine or self-isolation before the start of the fall term._
# Student Engagement and Leadership

## Who Does Guidance Apply To?
- RSGA and all RSPH Student Organizations
- Scholars in Action
- Gates Millennium Scholars
- Other Student Groups/Task Forces

## Guidance

### Precautions for Student-Run Events (No School Closure):
- Utilization of a check-in system and adequate record-keeping (through Corq, Emory Card, or Sign-In Excel Sheet)
- Encourage participants to stay home while sick through messaging
- Ensure that hand sanitizer and handwashing facilities widely available
- Use of non-contact greetings

### Procedures for Student-Run Events in the Event of a School Closure:
In the event of a school closure, all in-person student activities will be cancelled. Please follow the procedures below for all future events.

#### On-Campus Event Cancellation:
- Inform Joanne Williams at jampost@emory.edu
- Communicate with any participants, panelists, and guests that have confirmed their attendance to your event(s) regarding cancellation via e-mail.
- Communicate cancellation of the event to Fulfillment Services. Contact Maurice Haines at Maurice.haines@emory.edu
- Cancel any catering orders as soon as possible.

#### Off-Campus Event Cancellation:
- Inform Joanne Williams at jampost@emory.edu, Student Involvement Leadership and Transitions (silt@emory.edu), AND Student Governance Services (sgs@emory.edu) via e-mail as soon as possible.
- Inform the venue, catering company, and any other partners involved. Joanne, SILT, and SGS will work with your student organization on negotiating refund procedures with all parties.
- Once cancellation is confirmed with all parties, communicate with any participants, panelists, and guests that have confirmed their attendance to your event(s) regarding cancellation via e-mail.
**Student Engagement and Leadership (Continued)**

**Guidance (Continued)**

**Using Emory Zoom in the Event of a School Closure:** As much as possible, we want to continue fostering community at the Rollins School of Public Health. Please consider using Emory Zoom for the following:
- Executive Board and Legislative Meetings
- Virtual General Body Meetings and Events (See this website for how to share screens for Powerpoint Presentations and invite others to attend for more information)

**Procedures for Hosting a Virtual Event on Emory Zoom:** PLEASE READ CAREFULLY
- All General Body Meetings and Events may not interfere with classes and may take place from:
  - 12:00-1:00PM and after 5:00PM on Monday-Fridays.
  - Events may take place at any time during Saturday and Sunday.
  - Please continue to be mindful of religious holidays.
- Continue to register your event through the Student Organization Event Registration Form (Note that this is a virtual event). Joanne will approve your event.
- Please continue to submit your event through the RSPH Calendar of Events.
- Feel free to advertise your event through the Class Facebook Pages, Instagram, and other channels.

COVID-19 academic continuity considerations for **doctoral students** in RSPH

Maintaining your health: NOTHING is more important than staying healthy. Please adhere to the following:

- Wash your hands frequently
- Stay home if you feel ill
- Contact Student Health Services for phone guidance or if you would like to see a medical provider, 404-727-7551
- Talk to your family members or roommates regarding maintaining healthy practices within your home
- Mental health is as important as physical health. Contact Counseling and Psychological Services (CAPS), 404-727-7450, for assistance

**Maintaining your research:**

- Discuss the following with your advisor(s):
  - Expectations on progress deliverables and modified timelines
  - Questions related to maintaining your research
  - Advisement schedule with advisor and dissertation committee
- Maintain open communication with your advisor regarding challenges you encounter in conducting research remotely

**Maintaining your degree progress:**

- If COVID-19 illness or response is expected to impact your ability to do any of the following, please speak directly to your DGS to make arrangements:
  - Participate in coursework
  - Travel to collect dissertation-related data
  - Finish any outstanding TA'ships or RA'ships
  - Maintain relationships with one or more of your dissertation committee members
  - Orally present your dissertation proposal or defense

**Maintaining work obligations:**

- If you are currently working for pay (e.g., TA'ing, non-dissertation research), discuss expectations with your supervisor regarding:
  - Telecommuting
  - Contingency plans should you become ill or unable to work
  - Expectations of you in regards to training or assisting students in your course or lab section with:
    - Remote course and/or lab section access
    - Advising of group projects
    - Assisting guest lecturers
    - Grading

Your PA and DGS are here to help. Should you have any concerns that have not been addressed in COVID-19 related guidance, please contact your PA or DGS.
Section_III

Staff and Infrastructure Needs

A subgroup of the RSPH Preparation and Response Team contributed to this document comprising the following:

Vanda Palmer Hudson, Director, Fulfillment Services Department
Mark Conde, Assistant Dean for Information Technology
Tiarra Lewis, Division Director, Human Resources
Carmen Marsit, Associate Dean for Research
Kimberly Maune, Associate Dean for Administration and Finance

Infrastructure-related needs include attention to the needs of staff who support the RSPH missions, the physical facilities, and research infrastructure in preparation for the possibility that there are disruptions in operations. Each of these three areas is addressed below.

A. Staff

Human Resources:

Following CDC Recommendations when ill

Following CDC current recommendations, Emory University advises any faculty or staff member who has a flu-like illness, or has a household member with a flu-like illness, to remain away from work for the duration of the symptoms and for at least 24 hours after the fever is gone. In this situation, faculty and staff should use accrued sick leave, vacation leave, or telecommute, if possible.

Addressing Symptomatic Employees

If a faculty or staff member reports to work and is clearly symptomatic (2 or more symptoms), can the manager ask the symptomatic employee to leave the workplace?

Yes. Managers should discourage attendance when an employee is symptomatic, following CDC guidelines on social distancing. It is completely acceptable for a manager to suggest that a symptomatic employee leave the workplace to avoid exposing others in the workplace. YOU MAY NOT ASK AN EMPLOYEE IF THEY HAVE THE CORONAVIRUS. As with any illness, do not share an employee’s medical diagnosis. If you have any questions on how to address a symptomatic employee, please reach out to your designated HR Associate.

If you are sick with a flu-like illness, stay home for at least 24 hours after your fever is gone except to get medical care or for other necessities. (Your fever should be gone without the use of fever-reducing medicine.) Keep away from others as much as possible. This is to keep from making others sick.
Occupational Injury Management Clearance for Confirmed Cases
If an employee is exposed, or has a confirmed case, does Emory require a clearance assessment from the Office of Occupational Injury Management before the employee can return to the workplace?
Yes. Emory faculty and staff should follow the CDC guidelines for post-exposure and convalescence; at this time, a clearance from Emory’s Occupational Injury Management is required in order to return to work.

Telecommuting
Is telecommuting an option for faculty and staff due to illness or under conditions of required remote operations?
Yes. An employee should review this option with their supervisor to work out an agreeable plan.

My child’s school is closed and I may not be able to work a full 8 hour day. Do I have the ability to telecommute and have a reduced schedule?
Yes. A schedule should be arranged with your supervisor to ensure proper coverage and availability. A reduced schedule is an option, if a monthly employee (exempt) works for at least four hours on a given day and obtains approval from his/her supervisor, his/her vacation balance will not be charged. This should in no way be interpreted to mean that a monthly employee is only required to work 4 hours per day during this time and without supervisory approval. Examples: • Following supervisory approval, if a monthly employee works for 4 or more hours, then takes the rest of the day off as vacation leave, his or her leave balance will not be charged. • If a monthly employee works 1 or 2 hours and takes the rest of the day as approved vacation leave, the employee’s leave balance will be charged 4 hours. • If the employee takes the entire day off as vacation leave, the employee’s leave balance will be charged 8 hours. • For part-time employees, proportional leave deductions would apply based on the number of hours the employee is scheduled to work. For employees who work flexible schedules.

Non-exempt staff are only paid for hours worked.

If I have an underlying health condition and not comfortable coming into work can I telecommute?
Yes. An employee should work out arrangements with their supervisor to define an agreeable plan.

What are the communication expectations when I am telecommuting?
You are expected to adjust quickly, learn the tools, and get your work completed as if on-site. Communication is the key to successful telecommuting and you should be reachable via phone and email within 15 minutes or indicate to your supervisor when you might be offline.
If a faculty or staff member needs to stay at home to care for a dependent or household member, will we permit telecommuting?

Yes. An employee should review this option with their supervisor to work out an agreeable plan.

Leave Exhaustion
In the event that if a faculty or staff member has been identified as having the CORONAVIRUS and has exhausted all leave, would Emory advance leave (up to a maximum limit) and then deduct the leave from future accrual?

Given the current outbreak circumstances, Emory will not automatically allow leave to be advanced, but will review requests on an exception basis to determine options to cover the individual’s leave. One option to consider is allowing leave donation to the impacted faculty or staff member; Employee Relations can assist if this option is being considered. At RSPH, we will look at various ways to help with any leave hardships.

Compensation
In the event that the University is closed for all but essential personnel, will Emory provide the “lost” work days as paid time off for all faculty/staff?

No. Under the current circumstances, Emory would not provide “lost” workdays as paid time off. We will review at the time of the event to determine if Emory will consider compensating employees for a short period. Employees who can work from home will be encouraged to do so.

Local School Closings
If local schools need to close due to an outbreak and parents/caretakers are required to remain at home to care for their children, would Emory allow the use of sick leave, annual leave or floating holidays?

Yes.

If a child has been exposed to the virus, would Emory require the parent/caretaker to remain away from work for a period of time?

The parent/caretaker should follow the CDC guidelines and take the appropriate precautions according to the CDC’s recommendations.

Link to Emory’s Coronavirus website
https://news.emory.edu/stories/2020/01/er_tn_coronavirus/campus.html

Onboarding
What is the process to onboard new faculty and staff under conditions of required remote operations?
**Human Resources:** Work with your designated HR Associate to complete onboarding. New employee hire data will continue to be collected prior to new employee starting to understand equipment, space, and training needs.

**Information Technology:** Under conditions of required remote operation Emory equipment may be delay deployment. Information will be collected to understand computing needs at home. Supervisors should reach out to RSPH IT via help@sph.emory.edu or visit https://myhub.sph.emory.edu

**Supervisor:** Supervisor’s should communicate with new hires on the status of Emory operations. If new employee is required to start on remote access IT should be contacted to develop an at home equipment assessment. Supervisor’s should plan remote training plans.

**B. Physical Facilities**

**Emory University Campus Services Response:**

Campus Services has implemented an additional cleaning process. This step utilizes a disinfectant that will be sprayed in common spaces across all campus facilities. The disinfectant will not be applied in private spaces. The process will occur during the overnight shift.

Outside of these hours, Campus Services will continue cleaning and disinfecting efforts in high traffic areas, such as public restrooms in university buildings and residence halls, fraternity and sorority housing, recreation facilities, the Emory Student Center and Woodruff Library. Hand sanitizer stations are also located in high use areas across campus.

Faculty, staff and students are encouraged to continue the practice of cleaning personal areas, such as offices and private rooms. Campus Services is following the recommendations of the CDC and other public health experts and will adjust plans if guidelines change.

**Rollins School of Public Health Fulfillment Services Department** will work hand in hand with Campus Services to complement the above response by implementing the following protocols:

**Disinfect all heavily used and populated spaces – during Spring Break**

Fulfillment Services team and a team assigned from Building and Residential Services will work together on Wednesday, March 11 and Thursday, March 12 to disinfect the following areas in Grace Rollins, Claudia Nance Rollins buildings and RSPH offsite locations in Decatur.

- All classrooms: surfaces, chairs, and whiteboard – we are replacing all dry erase markers and erasers
- All conference rooms: surfaces and chairs
- All study areas: surfaces and chairs
• All Café tables and chairs

We will work together to implement a weekly schedule to repeat this process until further notice.

**Fulfillment Services Daily Disinfecting Protocols – Effective Monday, March 19, 2020**

**Setups and Breakdowns:** FS Staff will sanitize all surfaces and chairs/before after meetings during daily setups. Staff will wear gloves for setups and breakdowns.

**Showers:** Building and Residential Services will clean and disinfect the showers located on GCR 1st floor 3 times per week. Spray bottles filled with disinfecting solution will be located in the men and women’s showers. Signage will encourage employees to spray the showers after use.

**Hand Sanitizer Dispensers:** Install 20 dispensers in convenient locations throughout the RSPH Complex on and off campus.

**Sanitation Wipe Dispensers:** Install dispensers in the following areas: Classrooms, breakrooms, café, student study areas, Gracement and RSPH off campus locations in Decatur. Purpose – Encourage RSPH Community to wipe down surfaces before and after use.

**Prevention/Awareness Signs:** Post the following prevention signs (magnet/posters) in RSPH restrooms, kitchens, elevators, café and other public areas by Monday, March 19, 2020:

- Handwashing-How and Where: Five Steps to Wash Your Hands the Right Way,
  - [https://www.cdc.gov/handwashing/when-how-handwashing.html](https://www.cdc.gov/handwashing/when-how-handwashing.html)

- Don’t Spread Germs

**Note:** There is a national shortage of hand sanitizer and disinfecting product due to COVID-19. FS will restock products as they become available.

**C. Research Infrastructure**

Each research group is best positioned to create a continuity plan that will meet their unique needs. The guidance below is provided to facilitate the development of that plan. The Office of Research Administration has developed a COVID-19 website to provide updated guidance in relation to research operations and sponsored projects:
For research contingency planning, there are some assumptions being made based on the current situation and potential scenario of widespread communal transmission of COVID-19:

- A significant percentage of your research workforce may be out sick or unable to come to work.
- Essential research infrastructure, such as power and telecommunications, will be maintained.
- The Offices of Research Administration (ORA), which includes Sponsored Program, Technology Transfer, Conflict of Interest, RAS, Business Operations, Research Grants and Contracts, Environmental Health and Safety, IRB, Animal Use (including IACUC and Division of Animal Resources), and Office of Clinical Research will maintain critical functions but will likely experience delays.
- Orders for critical supplies may be delayed.
- Processing of visas by the federal government may be delayed, resulting in delayed appointments.
- Core facilities and other fee-for-service resources may not be available.
- Repairs performed by Facilities and other Emory or non-Emory service providers may be delayed.
- Decontamination of your workspace may be necessary in the event of a local illness.
- The university will communicate any disruptions to building, office, or laboratory access.

<table>
<thead>
<tr>
<th>For all Researchers -- Steps to take now to ensure continuity of research functions:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Assess and prioritize critical research and laboratory activities</strong></td>
</tr>
<tr>
<td>Pinpoint procedures and processes that require regular personnel attention (e.g. participant scheduling, cell culture maintenance, animal studies).</td>
</tr>
<tr>
<td>Recognize any research protocols, projects, or experiments that can be ramped down, curtailed, or delayed.</td>
</tr>
<tr>
<td>• If necessary, file appropriate amendments or protocol deviation reports with the IRB and IACUC. The IRB has issued specific guidance around IRB protocols in the time of COVID-19.</td>
</tr>
<tr>
<td><strong>Identify personnel able to safely perform essential activities and assure their preparedness</strong></td>
</tr>
<tr>
<td>Document contact information for your critical staff.</td>
</tr>
<tr>
<td>Develop a communication plan for when a team member is out and cannot perform a critical function</td>
</tr>
<tr>
<td>Confirm that staff have the appropriate training.</td>
</tr>
</tbody>
</table>
Consider documenting critical step-by-step instructions.

Cross-train research staff to fill in for others who may be out sick or unable to come to work.

Coordinate with colleagues who have similar research activities to identify ways to ensure coverage of critical activities.

**Review contingency plans and emergency procedures with researchers and staff**

Emory Environmental Health and Safety provides resources around various aspects of laboratory safety and emergency procedures.

**Maintain a sufficient inventory of critical supplies that may be impacted by global shipping delays**

This could include data collection tools, laboratory supplies, and personal protective equipment needed to carry out research related activities.

**Consider how collaborators or staff at other sites, including international locations, may be negatively impacted by COVID-19**

Develop a contact list of collaborators and staff at other sites in order to coordinate communication

Discuss how operations at other sites are being impacted and be prepared to alter operations to accommodate those changes

Be prepared to discuss changes and make necessary plans to ensure that staff and collaborators working outside of Emory maintain their health and safety

**Be thoughtful about travel to conferences and other work-related trips**

There is currently no federal guidance relating to charges to awards for non-refundable travel cancellations related to COVID-19. Please continue to follow the University Travel Policy and general cost principles described in Uniform Guidance. Trip cancellation insurance is typically an unallowable charge to sponsored awards. Emory is monitoring federal guidance for changes.

RSPH and the University continue to follow travel guidelines suggested by the CDC, State Department, and International SOS. Emory continues the indefinite suspension of all official and previously authorized travel for students, faculty and staff to China, Iran, Italy and South Korea. Given the dynamic nature of the outbreak, we strongly recommend that all Emory faculty, students, and staff reconsider domestic and international travel, especially for senior members of the community and individuals at increased risk for severe illness. Research related international travel should be considered thoughtfully.

For travel, including flights and hotels, that was booked and now requires cancellation or rescheduling, the Emory Travel Office and CTM (Emory’s approved travel vendor) have verified that full credit will be issued for flights cancelled because of the outbreak. Travellers should log on to CTM’s Concur App, and process their cancellation through that app. A credit will be held on your account for the cancellation.

When you are ready to use the credits:
• Call the CTM agent (877-289-4627) to book the new flights. You will be charged a $25 agent fee, which is an allowable expense.
• Do not book online or call the airlines to use your credit. If you do so, you will be charged the $200 change fee in addition to any additional booking fees.
• Credits are valid for 12 mos.

**Maintain communication with grant Program Officers to discuss delays or changes to grant deliverables.**

Principal Investigators on any sponsored projects are encouraged to contact Program Officers immediately to let them know of any work plan adjustments.

Prepare a brief explanation of any delays or changes that can guide the discussion and be used in your subsequent progress report. This should outline alternative work completed and plans for accomplishing the original goals.

<table>
<thead>
<tr>
<th>For researchers with laboratory resources or needs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Check that information on freezers and other critical equipment have updated contact information (e.g., -80C freezers, liquid nitrogen storage dewars, incubators).</td>
</tr>
<tr>
<td>Where possible, appropriately power down any equipment that will not be used for extended period.</td>
</tr>
</tbody>

Section IV

Communications Strategy

A subgroup of the RSPH Preparation and Response Team contributed to this document comprising the following:

Kelly Jordan, Director of Strategic Content and Communications
Dabney Evans, Research Associate Professor, Global Health
Benjamin Lopman, Professor, Epidemiology
Ashaki Williams, Director of Marketing and Communications

Summary:
Rollins has taken a proactive approach to preparedness planning for the potential impacts of COVID-19 on Rollins’ operations, recruitment, staffing, safety, and resource allocation. In an effort toward protecting and informing our community, a Rollins COVID-19 Preparation and Response Team was formed with the purpose of advising the dean and leadership team in developing a scalable action plan based on various working scenarios.

Communication Goals:
- Streamline messaging to ensure accurate and timely information specific to various aspects of Rollins operations are delivered in a timely manner to the entire Rollins community.
- Target and share messages with our core audiences: faculty, staff, alumni, students, and external audiences (prospective students, donors, public health partners).
- Position our faculty as experts on COVID-19 to the news media.

Strategy:
- Utilize RSPH-all listserv, website, social media channels, and digital signage to share updates and pertinent messages.
- Partner with Emory CEPAR, Provost’s Office, and Central Communications Unit to ensure communications are on message and reflect the university’s overall positioning on specific topics.

Tactics:
- Email
  - Send regular messages with updates to the Rollins community over the RSPH-all listserv. Messaging will be sent once a week at a minimum and will be guided by discussions at Preparation and Response Team meetings. Emails to be prepared by Kelly Jordan in partnership with the Communications Working Group.
- Website
○ Develop a web page where these updates—along with other relevant COVID-19 information, Emory’s coronavirus website, and contacts—can be cross-posted. Link that page to the homepage of the Rollins website. The newly developed RSHP COVID-19 webpage is here.

○ Utilize MyHub to share Rollins policies and/or updates relevant to our internal audience. Much of what is posted on the externally facing Rollins COVID-19 page may also be cross-posted there. Mark’s group is currently working to develop a section of MyHub to support this.

● Social Media
  ○ Share CDC messages, Emory-wide messages, and Rollins messages that are pertinent to our external audiences (including donors, partners, and prospective students).
  ○ Retweet/repost reputable reports surrounding COVID-19, journal articles authored by our faculty on the topic, and social media posts by our faculty.

● Digital Signage
  ○ Use digital signage system to reiterate broad COVID-19 messaging with the internal Rollins community. This might include hygiene tips from the CDC, travel updates, etc.

● Media Relations
  ○ Coordinate with Emory’s Communications and Public Affairs Office to position knowledgeable Rollins faculty and researchers as sources for reputable journalists on news stories related to COVID-19.
    ▪ Potential experts well suited to this may include Allison Chamberlain, Ben Lopman, Bob Bednarczyk, Felipe Lobelo, Karen Levy, and Matt Freeman.
